Hellenic Mediterranean University of Crete, Department of Agriculture, Agronomy and Crop Science

LANGUAGES

- English
- French
- Greek

WORK EXPERIENCE

Software Engineer

2022 - Present | Conveos

Heraklion Crete, Greece

- Introduced a streamlined approach for iOS and Android apps CI/CD deployments with technologies such as Fastlane, Gitlab and Gitlab Runners for automating tasks such as building, code signing, and distribution, resulting in efficient and reliable releases.
- Served as lead frontend developer, actively collaborating with the team, contributing innovative ideas, and fostering a cohesive and collaborative work environment to achieve project goals and deliver successful outcomes.
- Leveraged Vue.js, Vuex, React.js and Node.js to develop user-friendly web applications, ensuring effective communication and delivering tangible results that exceed client expectations.

System Admin – Software Engineer

2021 - 2022 | NetworkOverIT

Heraklion Crete, Greece

- Managed virtualization environments using hypervisors and containers like KVM, Hyper-V, and Docker. Incorporated RAID and backups to enhance data safety, integrity, and fault tolerance, safeguarding critical information and ensuring continuous availability.
- Deployed and provided expert third-level support for diverse IT infrastructure components, including webservers like Apache, Nginx, and Tomcat, database systems such as MariaDB and MySQL, PACS servers like Dcm4chee and Conquest and VOIP solutions based on Asterisk PBX.
- Developed, deployed, and maintained software solutions and automation tools tailored for clients/in-house usage. Utilized a wide range of technologies, including React.js, Node.js, Express.js, MongoDB, SQL databases, PHP, and shell scripting languages like Bash and PowerShell.
- Spearheaded the design and implementation of various critical IT infrastructure for public/private hospitals and hotels.

E-Shop Administrator

2020 – 2021 | Saridakis Pharmacies

Heraklion Crete, Greece

- Uploaded new and updated existing products, updated stock quantity through the ERP software.
- Managed and processed customer orders.

Agronomist

2017 - 2018 | Cristal Union Cooperative

Clermont Ferrand, France

- Responsible for the sugar beet crop evolution of an area of 5000ha and approximately 150 different farmers.
- Coordinated the harvest timing, product logistics with a fleet of 30 trucks, managed the on time and adequate sugar factory supply with sugar beets.
- Carried out field sample collections, various experiments, and result presentation to the cooperative members.
